

There are **more viruses**
than stars in the
universe.

An estimated **10 nonillion** individual viruses exist on
our planet.

We cannot control the virus,
but **we can control the
epidemic.**

Meet your new assistant.

ODDS OF SUCCESS

ENTRANCE TO PUBLIC PLACES

HIGH TRAFFIC AREAS

Governments are preparing to reduce
controls, to build recovery plans
And safe return to business.

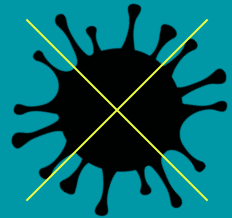

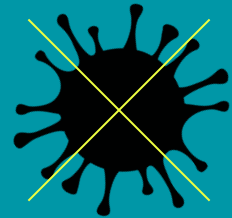

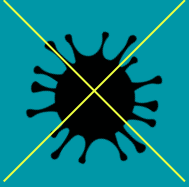

Temperature screening and increased levels of hygiene are likely to become the two main aspects of this.

Meaning we need to
adjust.

Specially assist to prevent
the spread of COVID - 19

MAGAZINES TALK ABOUT IT.

REUTERS

“Exclusive: Amazon deploys thermal cameras at warehouses to scan for fevers faster”

“RISE THE BAR Spain’s bars set to reopen in June – but punters will have to pass temperature checks in order to buy drinks.”

Forbes

“Tech That Scans People For Fever In Big Demand Amid Coronavirus Crisis”

BIG IDEAS BIG SUCCESS.
